# ReNuLite

Restores 20 Lights

## Headlight Restoration Kit

**BEFORE**  
Cloudy and Yellowed

**AFTER**  
Clear and Like NEW

Presta's ReNuLite technology headlight restoration process will restore faded and yellowed headlights to factory appearance, quickly and easily and keep them looking new for a minimum of 3 years. Use Presta's advanced technology headlight restoration process to add profit dollars to your service, used car and body shop departments.

- The only headlight restoration process to be tested and recommended by Ford Motor Company.\*
- Easy to use; restore 2 headlights in as little as 45 minutes.
- Kit restores approximately 20 headlights and includes everything you need to complete the 4-step process with the exception of a drill or pneumatic polisher.
- ReNuLite Headlight Restoration Crème effectively removes lens discoloration and haze and restores like-new appearance.
- ReNuLite Headlight Lens Drier dries and degreases headlights to complete the preparation process.
- ReNuLite UV Curable Headlight Sealant protects lens and ensures this like-new appearance is maintained for a minimum of 3 years.

**ReNuLite Headlight Restoration Kit also includes:** A 3" wool buffing pad, drill attachment, interface pad for attachment, masking paper with dispenser and 600 grit sanding paper discs.

**YOU WILL NEED:** UVA Curing Light (#800192), variable speed drill, spray bottle, lint-free microfiber towel and some basic safety equipment.
