

LEATHER CONDITIONER SPECIALTY PRODUCTS

DESCRIPTION:

Presta Leather Conditioner helps preserve leather by returning lost moisturizers that keep leather soft and supple. This high quality lotion cleans and protects fine leathers without leaving surfaces greasy or slippery.

DIRECTIONS:

Apply Presta Leather Conditioner directly onto leather and immediately start to massage the creamy lotion into the leather. Add more to increase the size of the treatment area. After complete coverage has been achieved, wipe off any excess lotion. For seams and trim use a detail brush to lift dirt and debris from hard-to-reach areas.

FEATURES & BENEFITS:

- **CREAMY LOTION FORMULA.** Presta Leather Conditioner is not thin and watery like many products. This premium emulsion spreads easily and penetrates deeply.
- **EASY-TO-USE.** Presta Leather Conditioner spreads quickly and penetrates leather surfaces. It does not leave an oily film that must be rubbed away.
- **NON-GREASY GLOSS.** Unlike other leather conditioners, Presta Leather Conditioner treats leather without leaving unsightly, oily films that can rub off on clothing.

PACKAGE SIZES:

16 fl. oz.
