

*The Finest of
Finishing Products™*

PRODUCT CATALOG

Presta® Products is dedicated to serving the professional market by providing high-quality, specialty finishing and cleaning products, such as compounds, polishes, detailing chemicals and accessories, to automotive, industrial, and recreation customers.

These products have been specifically formulated to deliver exceptional results for all your high-end needs. Clear coat, single stage, gel coat, new or old – Presta’s products create a dazzling, mirror-like finish. And we know our products are the finest available because our customers have helped design them for their needs!

Our operating principles are built on the philosophy of being “Our Customers’ Best Partner” and we bring this to life at every interaction:

- On-site, proprietary R&D lab where our products are developed and tested
- Specialized sales team offering a systematic approach to operating with documented processes, regulatory knowledge and workplace safety training
- Dedicated customer service team to assist with product knowledge
- A comprehensive line that meets the needs of a wide variety of customers
- An exceptional value, Presta products combines best-in-class performance with time and cost savings
- Partnerships with a wide variety of businesses including body shops, distributors and OEMs

Today, our innovative spirit and commitment to quality is alive and well in Barberton, Ohio. A part of Malco Products, Inc., we’ve been owned and operated by the same family through three generations since 1953. Every day, the Presta story is told in collision shops in small towns and major cities across the United States and worldwide.

We’re excited to share our products and services in this catalog. Please contact your Presta representative or distributor if you have questions or would like to share your insight with us. We think you will agree, Presta is The Finest of Finishing Products™.

Welcome to Presta Products!

SCUFF STUFF® SURFACE PREP

INDUSTRY LEADER!

Proper surface preparation is critical during and after the painting process, as surfaces need to be properly prepared for lasting paint adhesion to take place. Two of the most common concerns for improper topcoat adhesion typically occur in blend areas and on plastic surfaces such as bumper covers.

Scuff Stuff® Surface Prep is the ideal paint prep product for these types of common concerns, because it's efficient and effective, saving you time and money:

- Contains super-fine abrasives that create a consistent surface profile helping coatings spread flatter and bond more securely to the treated surface
- Water-soluble formula that cleans away waxes, road films and dirt at the same time without causing sand scratch swelling

2 FL. OZ. POUCH #131702

SELECTING THE RIGHT PRODUCTS

Selecting the best product for each job is critical in achieving high-performance results and saving both time and money. On the next few pages you will find a wide variety of buffing and polishing products to help you accomplish the desired outcome of a flawless, swirl-free, show-car finish.

What's Best for Me?

Achieving optimal results when correcting and finishing vehicle surfaces requires a system of buffing compounds, polishes, pads and accessories. Presta's systems, for both dual-action orbital polishers and rotary buffers, are geared to the broad-range demands from a fast-paced production environment to a custom shop.

FOR ORBITAL POLISHERS

- ### PACE™ Paint Finishing System (See page 4)
- One-step process that reduces inventory, uses less product and eliminates the guess work
 - Designed to work with a dual-action orbital polisher
 - Cuts P1500 sand scratches and finishes without swirls
 - Great cutting power and polishing action uses less sand paper, saving time and money

FOR ROTARY BUFFERS

- ### Ultra 2 Step® Buffing System (See page 6)
- Everything needed for complete paint refinishing after sanding
 - Designed to work with a rotary buffer
 - Two-step system that cuts P1500 sand scratches and leaves a swirl-free finish
 - Works with both hard and standard clears
- ### Ultra Buffing System (See page 8)
- Three-step system that cuts P1500 sand scratches and leaves a swirl-free finish
 - Designed to work with a rotary buffer
 - Works with both hard and standard clears

Our color-coded, stepped-approach systems allow you to select the number of steps that fit your job. From our one-step PACE™ Paint Finishing System to our multi-step Ultra Buffing Systems, Presta has the right combination for your needs. And best of all, each system pairs the tool and pad with the compound so you don't have to worry about having the wrong component.

Let's find the right system for you!

THE FINEST OF FINISHING PRODUCTS™

PACE™ PAINT FINISHING SYSTEM KIT

PACE™ Paint Finishing System is a one-step process that's easy to use, reduces inventory, uses less product and eliminates the guess work. Designed to work with a dual-action orbital polisher, PACE allows collision centers to cut P1500 sand scratches and finish without swirls. The great cutting power and polishing action lets you use less sand paper, saving time and money. Coupled with its ease of use, shops will see cycle times improve ... and that means more cars out the door. Each kit contains the following:

- 6.5" KIT CONTENTS #133094S**
- 16 fl. oz. PACE™ Heavy Cut Compound #133116
 - 16 fl. oz. PACE™ Medium Cut Compound #133216
 - 16 fl. oz. PACE™ Ultimate Polish #133316
 - 16 fl. oz. Protective Glaze #133716
 - PACE™ Purple Foamed Wool Heavy Cut Pad (6.25") #890197
 - PACE™ Grey Foam Heavy Cut Pad (6.5") #890194
 - PACE™ Orange Foam Medium Cut Pad (6.5") #890195
 - PACE™ Black Foam Ultimate Polish Pad (6.5") #890196
 - Foam Pad Conditioning Brush #890080
 - 5 Ultra-Soft Edgeless Microfiber Cloths #800136
 - PACE Poster #800596R

PACE™ HEAVY CUT COMPOUND

A correcting and polishing compound that removes up to P1500 sand scratches.

- Polishes to a deep gloss in one step
- Reduces cycle times
- Specially formulated for use with dual-action orbital polishers
- Contains no filler, waxes or silicones

32 FL. OZ. #133132
16 FL. OZ. #133116

PACE™ MEDIUM CUT COMPOUND

A correcting and polishing compound that removes up to P2500 sand scratches.

- Polishes to a deep gloss in one step
- Reduces cycle times
- Specially formulated for use with dual-action orbital polishers
- Contains no filler, waxes or silicones

32 FL. OZ. #133232
16 FL. OZ. #133216

PACE™ ULTIMATE POLISH

Can be used as a one-step finish for enhancing the appearance of a vehicle where light correction with a deep gloss is desired.

- Can also be used as a final step after PACE™ Heavy Cut Compound or PACE™ Medium Cut Compound to achieve a deep, show-car-level gloss
- Specially formulated for use with dual-action orbital polishers

32 FL. OZ. #133332
16 FL. OZ. #133316

PACE™ PROTECTIVE GLAZE

A breathable and durable product that is an ideal last step in the PACE™ Paint Finishing System process. This advanced formula goes on easily and wipes off quickly, producing a deep, long-lasting gloss.

- Beautifies and protects freshly painted surfaces
- Allows surfaces to fully cure without causing solvent pop
- Can also be used to heighten gloss on nonrepaired vehicle areas, making it ideal for pre-delivery prep

16 FL. OZ. #133716

FINAL SANDING GRIT	ONE-STEP PRODUCT	PAD SELECTION	
P1500	 Heavy Cut Compound	Hard Clears → Purple Foamed Wool Heavy Cut Pad (6.25" #890197) (5.25" #890193) (3" #890186)	 Grey Foam Heavy Cut Pad (6.5" #890194) (5.5" #890190) (3" #890180)

ULTRA 2 STEP® BUFFING SYSTEM SHOP PAK #139090S

The buffing and accessory items in the **Ultra 2 Step® Buffing System** Shop Pak provide everything you need for complete paint refinishing after sanding - from compounding to polishing to protecting your flawless, swirl-free finish. Each kit contains the following:

- 32 fl. oz. Ultra 2 Step MaxCut™ Compound #139032
- 8 fl. oz. Ultra 2 Step Cutting Compound #139308
- 32 fl. oz. Ultra 2 Step Finishing Polish #139432
- 32 fl. oz. Ultra Complete Glaze™ #144132
- 22 fl. oz. Spray 'N Shine™ Instant Detailer #130922
- Black & White Wool Compounding Pad #890146
- White Foam Waffle Compounding Pad #890171
- Grey Foam Waffle Polishing Pad #890172
- Yellow Foam Backing Plate #810116
- 5 Ultra-Soft Edgeless Microfiber Cloths #800136

ULTRA 2 STEP® MAXCUT™ COMPOUND

A fast-cutting compound specifically designed to remove P1500 and finer sand scratches on hard or fast-drying production clear coats.

- Super-hard abrasive engineered for the latest clear coat technologies
- Cleans up quickly
- Contains no fillers, waxes or silicones

1 GAL. #139001
32 FL. OZ. #139032
8 FL. OZ. #139008

ULTRA 2 STEP® CUTTING COMPOUND

A fast-cutting compound designed to remove P1500 and finer sand scratches on most new and aged clear coats.

- See-through formula for visibility of performance while buffing
- Cleans up quickly
- Contains no fillers, waxes or silicones

1 GAL. #139301
32 FL. OZ. #139332
8 FL. OZ. #139308

WARNING: Cancer - www.P65Warnings.ca.gov

ULTRA 2 STEP® FINISHING POLISH

An advanced all-in-one polish and swirl remover for use on both new and aged clear coat painted surfaces after compounding.

- Time-saving, single step creates a flawless, swirl-free finish
- Cleans up quickly
- Contains no fillers, waxes or silicones

1 GAL. #139401
32 FL. OZ. #139432
8 FL. OZ. #139408

ULTRA COMPLETE GLAZE™

Ultra Complete Glaze™ offers durable yet breathable paint protection that won't cause solvent pop.

- Easy-on / easy-off application for quick pre-delivery prep
- Breathable film ideal for freshly-cured paint
- Silicone-free formula offers 30 days of protection

32 FL. OZ. #144132
8 FL. OZ. #144108

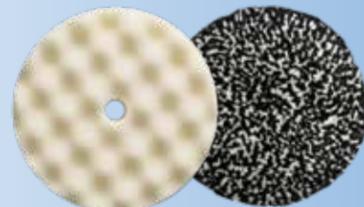

STEP 1

Ultra 2 Step MaxCut™ Compound
Great for Fresh and Hard Clear Applications

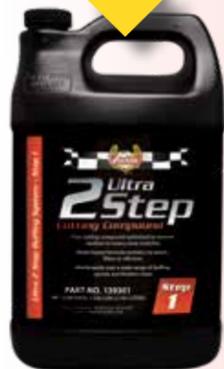

P1500

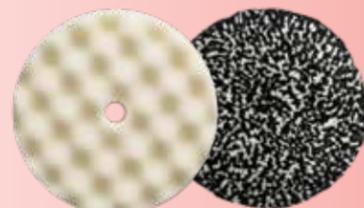

White FoamPad (#890171)
Speed = 1200-1600 rpm / Recommended Speed = 1400 rpm
Black & White Wool Pad (#890146)
Speed 1600-2200 rpm / Recommended Speed = 1800 rpm

5 = HIGHEST PERFORMANCE

VOC-COMPLIANT RADIANT™ NON-SILICONE DRESSING

A non-silicone, solvent-based dressing formulated to restore color and gloss to rubber, leather and vinyl surfaces. **(Ready to use)**

5 GAL. #134205
1 GAL. #134201
22 FL. OZ. #134222

EASY COAT DRESSING

Easy Coat Tire Dressing is a water-based, body shop safe dressing intended for use on exterior rubber and plastic surfaces. This high quality and economical dressing contains no silicone.

5 GAL. #134405
1 GAL. #134401

WATER-BASED DRESSING

A silicone-suspended dressing formulated for superior water-based performance on interior and exterior surfaces, producing a durable, lustrous shine. **(Dilute up to 1:3)**

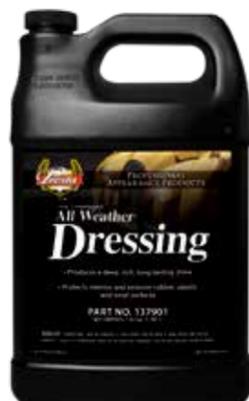

5 GAL. #140505
1 GAL. #140501

ALL WEATHER DRESSING

A solvent-based, silicone dressing that produces a rich, long-lasting shine. Ideal for use on all vehicle interior and exterior vinyl, rubber and plastic. **(Ready to use)**

5 GAL. #137905
1 GAL. #137901

REGULATOR™ CLEANING SYSTEM

Creates accurate dilutions of your cleaning products, while housing six specialty 5-gallon containers on a sturdy rack system.

- (1) 5 gal. Sudzz™ Car Wash
- **WARNING:** Cancer - www.P65Warnings.ca.gov
- (2) 5 gal. Conquest™ Cleaner
- (1) 5 gal. Ultra Concentrated Glass Cleaner
- (1) 5 gal. Easy Coat Dressing
- (1) 5 gal. Non Acid Tire and Wheel Cleaner
- (3) Carboy Spigot
- (3) Spray Bottle
- (1) Red Trigger Sprayer
- (2) Grey Trigger Sprayer
- Regulator
- Regulator Shelving System

KIT #136530

REGULATOR™ PROPORTIONING SYSTEM

Provides both the performance and economy of a proportioning system allowing the cleaning products to be automatically diluted to the proper strength without the inaccuracies, waste or mess that's common with hand mixing.

EACH #800100

ULTRA CONCENTRATED GLASS CLEANER

Quickly and easily cuts through dirt, grease, grime, bugs, oily films and other soils on glass and other hard shiny surfaces. Fast-drying, streak-free formula. Ammonia-free formula safe for use on glass with aftermarket tint. **(Dilute up to 1:13)**

5 GAL. #138305
1 GAL. #138301

GLASS CLEANER AEROSOL

An ammonia-free cleaner that powers away films and grime to leave glass, chrome, tile and mirrors clean and streak-free. Safe for use on windows with aftermarket tint.

19 OZ. #132920

METAL POLISH

A metal restoration cleaner and polish designed to eliminate surface oxidation, brake dust and oily residue.

16 FL. OZ. #135416

POLYMER CLAY WASH MITTS

Dual-action mitts work fast, achieve impressive results and are a great, hard-working alternative to clay bars. If dropped on the floor, simply rinse clean to use again.

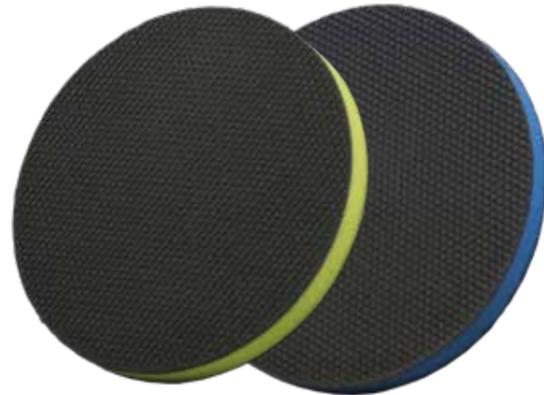

SIDE 1: Scratch-free washing works great with **Sudzz™ Car Wash (#1355)** or **Ultra Concentrated Car Wash (#1381)**.

SIDE 2: Polymer coating that removes surface contaminants such as paint overspray, fresh tree sap, rail dust and more. Use with **Spray 'N Shine™ Instant Detailer (#1309)**.

For Heavier Contamination
MEDIUM GRADE WASH MITT - YELLOW #8130722

For Lighter Contamination
FINE GRADE WASH MITT - BLUE #8130723

POLYMER CLAY PAD

A fast way to remove surface contaminants from entire vehicle with its innovative polymer coating. 6" pad fits most dual-action orbital polishers. Available in two grades:

MEDIUM GRADE PAD - YELLOW #8130711
FINE GRADE PAD - BLUE #8130712

CLEAN 'N SHINE

A time-saving cleaner and dressing in one for leather, vinyl and plastic. Restores to a like-new appearance without leaving a greasy residue. **(Ready to use)**

5 GAL. #138805
1 GAL. #138801
22 FL. OZ. #138822

LEATHER & VINYL CLEANER

A powerful cleaner for vinyl, plastic and leather that goes deep into pores to remove grease and grime, leaving the surface film-free. **(Ready to use)**

5 GAL. #134905
1 GAL. #134901
22 FL. OZ. #134922

DETAILING CLAYS

A special blend of abrasive and clay-type binder systems removes surface contaminants such as cured overspray and industrial fallout from automotive finishes and trim.

HIGH PERFORMANCE
HEAVY CUT CLAY BAR - PURPLE #8130710
LIGHT CUT CLAY BAR - GRAY #8130708

KOZAK® AUTODRYWASH™ CLOTH

Safely removes dust, fine dirt and other surface contaminants without water. Ideal for waterless spot detailing at dealerships, auctions, body shops, and for car enthusiasts and a variety of other applications. These cloths feature an anti-static formula that helps vehicles repel dust and light contaminants. Kozak cloths polish as they clean leaving the finish looking smooth, clean and bright.

EACH #521081

LEATHER CONDITIONER

A non-greasy formula that cleans, revives and conditions aged and dried leather surfaces, leaving a semi-gloss finish.

16 FL. OZ. #134616

LUBRI-SUDS™ ALL-PURPOSE SHAMPOO

A carpet and upholstery cleaner that lifts away all types of dirt and grime. Concentrated formula for variety of cleaning applications, including lubricant for wet sanding. **(Dilute up to 1:256)**

WARNING: Cancer - www.P65Warnings.ca.gov

1 GAL. #131001

ODOR ELIMINATOR

A special formula neutralizes unpleasant odors at their source, leaving no masking fragrance.

22 FL. OZ. #141122

B = BODY SHOP SAFE **V** = VOC COMPLIANT **W** = WATER-BASED

RENULITE® WIPE-ON HEADLIGHT LENS RESTORATION KIT

ReNuLite® Wipe-On Headlight Lens Restoration Kit will restore 20 faded and yellowed headlights to a like-new appearance. Sealant is UV curable and provides maximum protection for long-lasting clarity.

WIPE-ON KIT #136057

Components to restore 20 headlights:

- ReNuLite® Wipe-On Sealant 0.5 fl. oz. bottles, 10
- Lens Drier 8 oz., 1
- 600 Grit Sand Paper, 20
- 2000 Grit Sand Paper, 10
- Plastic dipping tray, 10
- Coralite® Sponge, 10
- 1500 Grit Sand Paper, 10
- 1 1/2" roll of masking tape, 1
- Vinyl Gloves, 10

SEALANT #139603 (BOX OF 10)

LENS DRIER #138608 (BOX OF 12)

UV CURING LIGHT

Designed to quickly cure the ReNuLite® Headlight Sealant when sunlight is unavailable.

UV LIGHT #890203

REPLACEMENT BULB #890204

POP DISPLAY

Stand-up counter display that provides key information about the ReNuLite® Headlight Lens Restoration System.

DISPLAY KIT #800550

ADDITIONAL BROCHURES - 25 PACK #800546

4 Steps to clearer, brighter, safer lights for your vehicle!

Factory headlight lenses are made from polycarbonate to be impact and scratch resistant. A special coating is applied during production to provide UV protection. Over time this coating decays, causing the unprotected lenses to become yellow and cloudy from overexposure to UV rays. As light passes through the damaged surface, it is diffracted at an angle resulting in decreased headlight output by up to 70%.

DAMAGED HEADLIGHT LENS

ReNuLite® is a system of products for professional headlight lens restoration that will show a 50%-100% increase in light output through the restored lens.

STEP 1 - COATING REMOVED

The lens can be wet sanded or dry sanded by hand with a sanding block or with a dual-action sander.

STEP 2 - SURFACE POLISHED

Scratch refinement can be accomplished by progressive sanding followed by a Lens Drier application to achieve a finish optimal for sealant.

STEP 3 - SEALANT APPLIED

The wipe-on sealant provides a lasting protection to the polycarbonate lens.

STEP 4 - SEALANT CURED

Use natural sunlight or the Presta UV Curing Light to cure the sealant on the restored lens. Headlight lenses properly restored with ReNuLite will last 1 year or more with the wipe-on application.

TOWER OF POWER

Features four 5-gallon carboys of our most popular detailing products including:

- Non-Acid Tire and Wheel Cleaner
- Conquest™ Heavy-Duty Cleaner
- Sudzz™ Car Wash

⚠ WARNING: Cancer - www.P65Warnings.ca.gov

- Leather & Vinyl Cleaner
- Carboy rack
- 3 labeled trigger sprayers
- 4 carboy spigots

KIT #137045

4-SHELF CARBOY RACK

Compatible with most 5-gallon containers.
Size: 54"H x 12.3"W x 13.75"D

#841004R

3-SHELF DETAIL SUPPLY CART

Size: 24"W x 15.75"D x 33.5"H

#860400

5-GALLON CARBOY PUMP

Easy-to-use, screw on pump for five gallon carboy containers makes product dispensing quick, easy and reduces mess.

#841001

GHS-COMPLIANT SPRAY BOTTLE

Durable, solvent-resistant bottle designed for use with trigger sprayers. Conveniently marked with hazard pictograms to be checked for GHS compliance.

32 FL. OZ. # 810099

TRIGGER SPRAYER - GREY

Heavy-duty solvent resistant sprayer with adjustable nozzle.

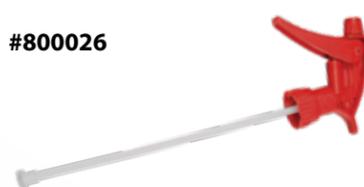

#845001

TRIGGER SPRAYER - RED

All-purpose trigger sprayer with adjustable nozzle.

#800026

KOZAK CHAMOIS

Highly absorbant 26" x 17" synthetic waffle chamois. Absorbs water, dirt and grime away from the surface, leaving it clean and dry.

#810152

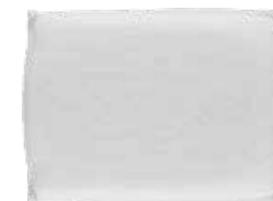

CHAPIN STYLE SPRAYER

Pressurized pump sprayer makes it easy to apply cleaning chemicals to large surfaces or engine bays quickly with complete control of spray pattern and direction of spray.

#800105

SQUARE WAX APPLICATOR PAD

4" x 5.25" terry cloth applicator.
#810011

TERRY CLOTH TOWELS

16" x 27" Terry cloth cotton towels. 12 pack.
#810044

MICROFIBER CLOTHS

16" x 16", 300 GSM general purpose micro-fiber detailing cloth.
5 PACK OF 5 #800137CS

ULTRA SOFT EDGELESS MICROFIBER CLOTHS

16"x16", 420 GSM Ultra-plush premium micro-fiber detailing cloth.
5 PACKS OF 5 #800136CS

GHS-COMPLIANT KETCHUP BOTTLE

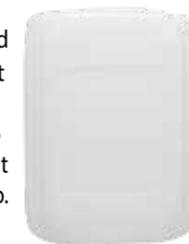

Solvent-resistant, flexible plastic works great for easy application of buffing chemicals. Conveniently marked with hazard pictograms to be checked for GHS compliance.

12 FL. OZ. #810098

5-GALLON CARBOY WITH CAP

Durable, tight head jug constructed of solvent resistant HDPE plastic. Convenient 3/4" tap for spigot attachment and comes with a cap.

#800150

GREY MICROFIBER WASH MITT

8" x 11" soft grey microfiber mitt.
#810010

RIBBON DISPENSER CAP

For use with ketchup bottles.

#810193

CARBOY SPIGOT

Narrow neck, easy-to-use, screw-in spigot for five gallon carboy containers makes dispensing product into smaller containers quick and easy. Tap size: 3/4"

#810124

LARGE WASH MITT

8" x 11" soft fiber mitt.
#810008

Understanding surface imperfections and the stages of defect removal is needed before choosing a buffing product and pad. The graphics below illustrate the vehicle surface and the steps required to remove defects and complete the refinishing process.

SURFACE DEFECTS
 Defects can range from dirt nibs to orange peel. Sanding and then buffing are often the steps required to recreate the smooth surface needed for light to reflect in the right way to produce gloss equal to the original surface condition.

The diagram shows a cross-section of a surface with two types of defects. On the left, two small dark spots are labeled 'DIRT NIBS'. On the right, a larger, wavy, irregular shape is labeled 'ORANGE PEEL'. Below the surface is a solid black layer representing the substrate.

REMOVING THE DEFECTS
 Sanding the surface removes the defect but leaves scratches that will keep gloss from appearing. After sanding, compounding will remove the sand scratches, and polishing will remove all remaining scratches and swirls to leave a smooth surface and a brilliant gloss. Glaze is often added at this point to protect the finished surface.

The diagram illustrates the process of removing defects in three stages. The top stage is labeled 'SAND 1500' and shows a surface with deep, regular V-shaped scratches. The middle stage is labeled 'COMPOUND/POLISH' and shows the scratches becoming much shallower and more irregular. The bottom stage is labeled 'GLAZE' and shows a smooth surface with a thin, light-colored layer on top.

NO FILLERS
 Presta's buffing compounds and polishes do not contain fillers, waxes or silicones. These substances can be used to temporarily fill scratches but do not remove them. This method of reproducing gloss will eventually wash away and the scratches reappear, reducing or eliminating any gloss that was created. This is commonly referred to as die back and can lead to costly rework.

FILLERS WASH AWAY OVER TIME

The diagram shows a surface with a jagged, irregular top edge representing scratches. A blue layer is applied over these scratches. An arrow points to the blue layer with the text 'FILLERS WASH AWAY OVER TIME', indicating that this temporary fix is not permanent.

WORKPLACE SAFETY

Workplace safety for chemical products is important. Keeping customers informed, helping to understand the rules, making it easy for businesses to comply and being in compliance as a manufacturer are all part of Presta's promise to be "Our Customers' Best Partner".

are available on prestaproducts.com around the clock. The requirement is to have access to the SDS sheets for the products you carry and /or sell. Our new SDSs are in single language format and are available for the US in English and Spanish.

- **Labels** - Presta product labels are GHS compliant.
- **SDS Sheets** - In the U.S., MSDS sheets are now called Safety Data Sheets (SDS). Current SDS sheets (along with Canadian SDS sheets available in English and French)
- **Presta GHS Resources** – information is available from your Presta Representative, Presta Customer Service or our Corporate Regulatory Team. Contact Presta directly at 800.860.4488 for more help understanding GHS changes and the impact on your business.

PRE-PRINTED SECONDARY BOTTLES AND LABELS

Buying compounds, glass cleaners and dressings in larger sizes makes good economic sense. Using the product directly from these large containers is awkward or just not feasible. Presta® offers smaller dispensing containers like spray bottles (#810099) and ketchup bottles (#810098) which are GHS compliant when appropriate hazard pictograms are checked. When transferring to a blank bottle, you need to apply the appropriate secondary label.
